EXCISE

DEPARTMENT OF STATE A/CDC/MR
REVIEWED BY Jean Simms DATE 2-27-81
PORTIONS DENIED AS INDICATED

Dear Mr. Tumminia,
All the industries in Jonestown, Guyana are doing very well. The Bruckmatic has been developed, as well as Meat smoking and the processing of peanut butter. New beans are being developed that are very high in protein. This is certainly a very worthy contribution towards finding ways to resolve the World food crisis. I appreciate the efforts of the State Department in attempting to keep peace in the face of hostile elements who are trying to cause trouble for Jonestown and Rev. Jones.
CC: Secretary Vance: Ass. Secretary Todman

Respectfully,

[redacted]
